Water Information Quick Facts

(courtesy of Sask H2O- Government of Saskatchewan)

- * A single lawn sprinkler may use 50% more water in just one hour than a combination of ten toilet flushes, two 5-minute showers, two dishwasher loads and a full load of clothes.
- * Water consumption usually drops 18-25% after a water meter is installed.
- * A 5-minute shower with a standard shower head uses 100 litres of water whereas a 5-minute shower with a low-flow shower head only uses 35 litres.
- * During the summer, about half of all treated water is sprayed onto lawns and gardens.
- * Residential Water Use in Canada- Toilet **30%**, Bathing and Showering- **35%**, Laundry- **20%**, Kitchen/Drinking- **10%**, Cleaning- **5%**.
- * The average residence uses over 100,000 gallons of treated water per year (inside and outside)
- * Health Canada suggests checking for leaky faucets and pipes- **Even the smallest drip can waste as much as 35 litres a day!!**

Animal Owners

Please be reminded that your pets must be on your property or on a leash at all times! Also, please pick up after your pet. Your neighbors do not want to pick up your animal deposits!!

Please note that the statements for the **2015 Drinking Water Quality and Compliance** and the **Annual Waterworks Information** are complete and available at the Village Office
