

Why are the docs + nurses
worried about Covid19?

80% of Patients are fine!

Because: they infect the other 15-20%

There are 1.1 million people in SK.

Without drastic measures 80% will be
infected = 880 000 people

10% of those will need hospitalization = 132 000

5% will need ICU = 61 000 ICU Beds we
do not have
