March 23, 2020

Attention

The attached pictures were provided by Dr. Christine Ryan from Shellbrook after a webinar held with her on Friday. The hope is that if the numbers are reflective of Saskatchewan, those who are not taking COVID-19 serious, will begin to.

As you are aware,
the Province of Saskatchewan declared a State of Emergency.

Please do your part and follow all restrictions. These are not only recommendations, it is the law and punishable by fines.

Please use the following resources for updated information as the COVID-19 pandemic continues.

The Village of Debden is Closed to the public, however we are available to take phone calls Tuesday-Thursday from 10:00-3:00. We ask that you please practice Social Distancing and do not approach our Foreman on the street. His health is vital to ensure we are able to continue to provide services such as Water, Sewer, Garbage pick up and snow removal. Please contact the office if you require anything.

Sincerely,
Tamara Couture
Administrator
Village of Debden
