

TAKE A STEP TOWARDS BETTER FOOT HEALTH!

**WE, THE ADVANCED FOOT CARE NURSES OF
SASKATCHEWAN, NEED YOUR SUPPORT IN
ADVOCATING FOR EXTENDED HEALTH PLAN
COVERAGE OF OUR SERVICES FOR THE
RESIDENTS OF SASKATCHEWAN.**

Advanced Nursing Foot care requires education above and beyond the basic nursing program. It is a specialized field of nursing that is recognized and approved by the Saskatchewan nursing regulatory bodies.

Individuals with diabetes, circulatory insufficiencies and a myriad of other issues require care from a trained professional. Individuals living with these conditions are at much higher risk for complications that can lead to infections, ulcers, and even amputations.

Advanced Foot care nurses can treat, educate, and prevent many of these dangerous complications.

We believe increased financial coverage by insurance plans will make this essential service more accessible to all. Many other provinces have this coverage and we believe Saskatchewan residents deserve it as well.

We believe this service should be added to the list of providers commonly available through extended insurance plans such as massage therapists, chiropractors, acupuncturists, podiatrists etc.

If you see the benefit, please join us in appealing to the insurance companies by signing below.

Thank you very much for your time and consideration.
